Claudia B. Horn

Performance Results Inc.

July 28, 2004

Calvin Edwards & Company and Performance Results, Inc. have collaborated on high impact projects involving the development and provision of information and support to the faith community. Our involvement with the U.S. Department of Housing and Urban Development's Center for Faith-based and Community Initiatives is one example of this effort. This project is focused on the development of materials to help the faith community to prepare for and manage Federal grants. Calvin Edwards & Company was instrumental in conducting the research necessary and in organizing the information in a practical and useful manner.

We have worked with Calvin Edwards & Company in conducting workshops in Outcomes Planning and Evaluation. The firm has a unique ability to "sift through" all the clutter of information and cut to the most important aspects of organizational capacity building and development. Their sensitivity to the independent nature of faith-based organizations is an asset when instructing these communities to become organized and purposeful without losing the unique character of who they are.

We look forward to our continuing work with Calvin Edwards & Company and helping the faith community demonstrate success.
